

KHUSHBOO KHAN

Product Design Leader | Systems, Strategy, Scale

linkedin.com/in/khushbookhan1 · khushbukhan115@gmail.com · khushboo-portfolio-chi.vercel.app

PROFILE

Product design leader with 13+ years building and scaling design in complex, high-stakes environments across regulated fintech, enterprise SaaS, and internal tooling. Former frontend engineer, now leading design as a strategic function: turning ambiguity into system logic, aligning product, engineering, and compliance around decisions that hold up commercially and in audit. Known for building design practices from the ground up, integrating AI into regulated workflows without compromising human judgment, and treating design as a business lever, not a finishing layer.

EXPERIENCE

Freelance Product Design Consultant | Toptal (top 3% talent network)

2026 – Present · Remote

Senior product design consulting for companies solving high-stakes product problems across identity, compliance, risk, AI, and enterprise SaaS.

- Partner with companies as a senior product design and UX consultant on complex, regulated, and AI-driven products, from discovery through shipped design.
- Work through Toptal's global talent network after selective vetting, delivering product strategy, UX, and design leadership on contract engagements.
- Bring 13+ years and a systems-first approach to enterprise, fintech, and identity products, aligning user needs with business and compliance requirements.

Lead Product Design | Shufti Pro

2023 – 2026 · Remote, Global

Identity verification and risk platform operating across 230+ jurisdictions for regulated fintech, banking, crypto, and gaming.

- Transformed a sales-gated signup into a scalable self-serve growth channel for startups and SMBs, lifting signup completion several-fold and unlocking a new self-serve revenue stream.
- Designed multi-jurisdiction identity onboarding that adapted verification requirements across 230+ jurisdictions, so a single flow served users worldwide without separate builds per market.
- Partnered with executive leadership to define product direction across identity verification, compliance, and risk, aligning customer needs, regulatory requirements, and commercial goals.
- Drove product discovery through customer research, behavioral analytics, and experimentation, shaping roadmap priorities and investment decisions.
- Rebuilt the end-user KYC verification journey across capture, liveness, and data entry, lifting completion 15% and turning a top drop-off point into a conversion driver for enterprise clients.
- Redesigned the compliance operations suite, case management, investigations, and audit workflows, cutting case review time about 30% and reducing the manual errors that create audit exposure.
- Defined where AI belongs in regulated review, shipping AI-assisted decisioning with human oversight and explainability that lifted reviewer throughput without adding regulatory risk.

Lead UX Designer | Programmers Force

2022 – 2026 · Remote

Multi-product RegTech and AI product studio (identity, business verification, biometrics, AML), the parent company behind Shufti.

- Led product discovery and end-to-end design for new enterprise products, turning strategic product vision into scalable user experiences and clear delivery plans.
- Built the product design practice from the ground up, establishing design standards, mentoring designers, and embedding design into product development across multiple enterprise products.
- Designed product branding, marketing websites, and high-fidelity interfaces that strengthened product positioning and customer adoption across the portfolio.

Lead UX Designer | Merit Incentives

Jul 2019 – Aug 2022 · Remote

Engagement, loyalty, and rewards platform (employee rewards, brand and bank loyalty, and gifting) across MENA and globally.

- Led design across the full product lifecycle, from research and concept to delivery, building scalable SaaS workflows across onboarding, dashboards, and engagement features.
- Improved activation, engagement, and retention by simplifying user journeys and designing flows around real user behavior.
- Designed loyalty, rewards, and gifting experiences for major brands, including Vodafone, Riyadh Bank's Hassad redemption marketplace, and Talabat gift cards.

Lead UX Designer | Macrosoft

Oct 2015 – Jul 2019

US enterprise software and IT services company serving global clients across regulated industries.

- Led end-to-end UX for enterprise business applications and data-heavy systems, designing complex workflows, dashboards, and reporting tools for global clients.
- Communicated design direction to senior stakeholders and facilitated workshops that aligned cross-functional teams on product decisions.
- Established consistent UX standards and reusable patterns that improved quality and scalability across complex enterprise products.

Senior Frontend Developer | RolusTech

Jul 2013 – Jul 2015

Custom software and CRM development firm (SugarCRM and Salesforce partner).

- Built responsive, cross-browser web applications and reusable UI components for CRM and business platforms, contributing to scalable frontend architecture.
- Partnered with design and backend teams to turn designs into functional, production-ready product experiences.
- Built the engineering foundation that still anchors my design in systems, constraints, and implementation reality, not idealized mockups.

SKILLS

Design Leadership: Product Strategy · Design Operations · Team Building & Mentorship · Stakeholder Alignment · Hiring & Org Design · Decision-Making in Ambiguity

UX Craft: Systems Thinking · Information Architecture · Interaction Design · UX Research · Usability Testing · Behavioral Design · Prototyping · Design Systems
